Cover BATHING CULTURE AROUND THE WORLD

Steamtherapy® is...

...making wellness a way of life®

Today, having rediscovered steam's many benefits, Steamtherapy can be a reward for a hard workout, relieving tired muscles as warmth penetrates your body. It's part of an at-home beauty regimen that keeps you glowing as warm moisture opens your pores, leaving your skin softer and more supple. Steamtherapy may be a natural detox that removes impurities from your body. It may also enhance your breathing, leaving you with an improved sense of tranquility and wellness. Steamtherapy allows music, scent and color to enhance your mood and heighten emotions.

Steamtherapy is for...

The Active You

A steam shower will warm your muscles and allow for more effective stretching. This could help prevent injuries, as well as being just a nice way to ease into your activity. Afterwards, a steambath may help reduce the lactic acid build-up in your muscles.

The Overworked You

A Steambath can help you forget about the day's trials and tribulations – and help you sleep better. Adding aromatherapy and music therapy will heighten the effectiveness.

The Holistic You

Skin is the body's largest organ. Care of the skin can aid in detoxification and increasing the skin's protective qualities. Adding a ten-minute steambath to your daily routine, will enhance your body's health regimen.

The Beautiful You

A steambath can cleanse and purify your pores hydrating and keeping your skin more supple. Skin ailments can improve and increased blood circulation will give you a healthy-glow.

The Balance of You

Steambathing is one of the most effective ways to improve your lifestyle. Concentration, relaxation, detoxification and rejuvenation are the necessary pillars for a stronger and more balanced you.

Are you Interested In...

- Getting more out of your workouts?
- Enhancing your daily beauty regimen?
- Boosting your holistic health?
- New ways to relax and unwind at home?
- Learning more about adding steam to your home?

If You Answered "Yes"...

to any of these questions turn the page for more details on all the ways that adding Mr.Steam Steamtherapy to your home and daily routine may enhance your overall health and well being.

tips to reduce stress

GET ENOUGH SLEEP

Adequate sleep fuels your mind as well as your body. Feeling tired can increase stress and mood swings. To relieve stress at the end of a chaotic day, take a steambath to encourage a good night's sleep. Make it a part of your routine to achieve a sense of balance before bed.

TAKE A MENTAL VACATION

Quiet your mind. Take a moment to close your eyes and create a mental sanctuary where you feel relaxed and comfortable. Focus on all of the sensory details - color, scents and sounds. Include more of those details in your life. Blue, green, and violet to promote rest and relaxation; lavender and rose essences to calm nerves; flute and harp music to rest the heart.

STRETCH TIRED MUSCLES

After a good workout or a hard day, take a few minutes to give yourself a rubdown in your own steam shower. A massage in a steamroom may provide deep relaxation and help improve physiological processes. Steam heat may help your rubdown release lactic acid buildup, helping to soothe muscle pain. As your muscles relax, so will your entire mind and body.

SteamTherapy® for Natural Health and Beauty

We call it SteamTherapy® because the potential benefits of steam bathing are endless, including:

- Soothes tired muscles
- Hydrates skin
- Enhances and improves breathing
- Promotes restful sleep and tranquility

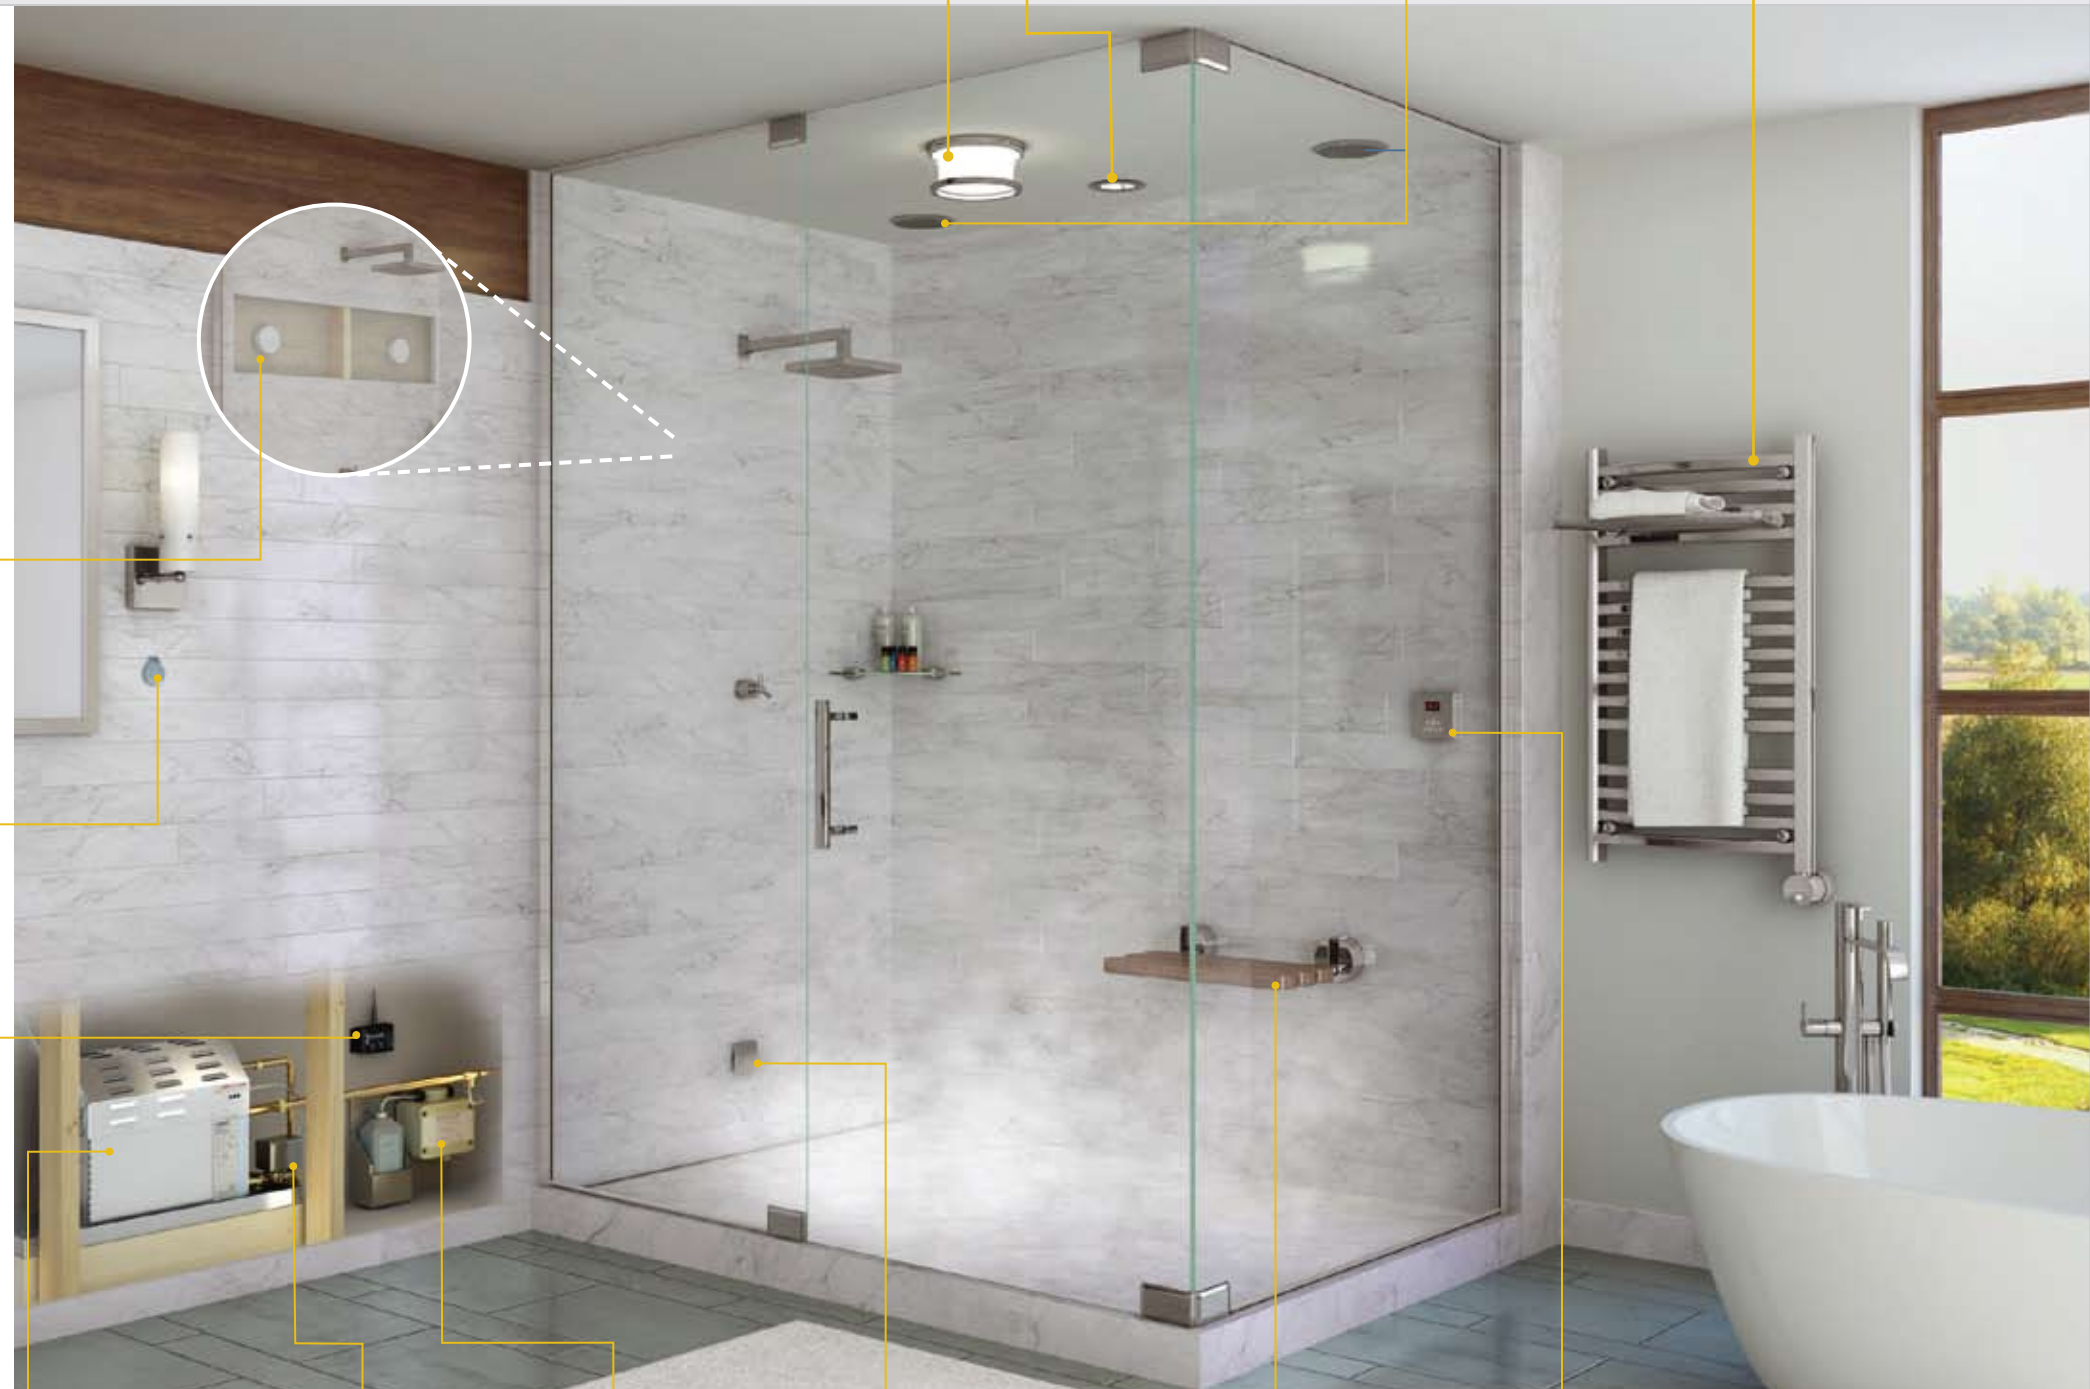

A Mr.Steam system is an investment to enjoy — stress free — for years to come.

We can make that promise because our high quality steambaths feature intelligent designs that ensure a lifetime of performance.

- Support a healthy lifestyle with regular steam bathing, the health and beauty secret your grandmother knew

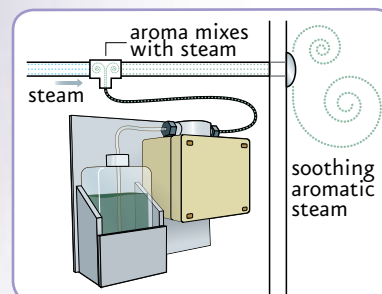

MUSIC THERAPY®
 Captivate your senses with music and sounds of your choice

CHROMA THERAPY
 LED lighting suffuses steam with an array of hues, from airy blue to sensual red

AROMA THERAPY
 Mankind's first medicine. With AromaSteam, enjoy your choice of therapeutic essences

Healing with Essence

Mankind's first medicine: Aromatherapy, literally treatment using scents," is the holistic practice of caring for the body with botanical oils.

Aromatherapy has been recognized for centuries as having potentially profound healing effects. The essential oils we use to scent our surroundings may help stimulate, relax, empower or even awaken us.

Mr.Steam introduces specially formulated essential oils extracted from organic flowers and plant material. Each aromatic oil offers a distinct fragrance with characteristics that may support the body's specific needs.

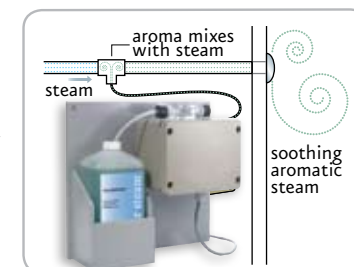

Mr.Steam offers two ways to introduce aroma therapy into the steam shower.

- Manually place 3-5 drops of Mr.Steam's essential oil onto the oil well of the steam head

AROMASTEAM STEAM HEAD

- Activate the Aromasteam Oil Delivery system using the eTempo/Plus® control. Fully automatic, the system evenly infuses aromatic scents into the steam room providing a superior aromatherapy experience.

AROMASTEAM OIL DELIVERY SYSTEM

- cULus Listed

AromaSteam System oils are available in long-lasting one-liter (33 oz.) bottles.

Our Exclusive Towel Warmers feature Built-In Aromatherapy Oil Wells

The 200 & 300 Towel Warmers feature built-in oil wells for heating Mr.Steam essential oils. Now you can enjoy a favorite scent as part of your bathing ritual.

Mr.Steam Essential Oils

EUCALYPTUS

A deeply refreshing aroma with cleansing effects, eucalyptus may help open air passageways

LAVENDER

A sweet, lightly floral scent, lavender may help soothe anxiety with its calming and restorative properties

BREATHE

A tropical combination that may help clear chest, nose and sinuses

EVERGREEN

A refreshing blend of spruce, fir and pine reminiscent of a forest on a crisp morning

ENERGIZING MINT

A blend of mint, citrus and herbs that may stimulate and energize

Chakra Oil System

RED VITALITY

Feeling a bit sluggish? This root chakra is associated with survival instincts, strength, health & vigor

INVIGORATING ORANGE

Are you feeling inhibited? The Sacral chakra associated with passion, confidence & enthusiasm, turn your steam bath into a motivating experience

YELLOW AWAKENING

Having difficulty staying focused? Associated with the intellect and communication, confidence, discipline and mental discrimination

GREEN HARMONY

Feeling stressed out? This heart chakra is associated with healing, hope, compassion for others (and yourself) and growth

CELESTIAL BLUE

Feeling nervous about a presentation? Boost self-expression, creativity, inner peace, loyalty and truth

MYSTIC INDIGO

Having a creative block? Enhance your creative intuition by stimulating intuitive thoughts and psychic awareness

VIOLET NIRVANA

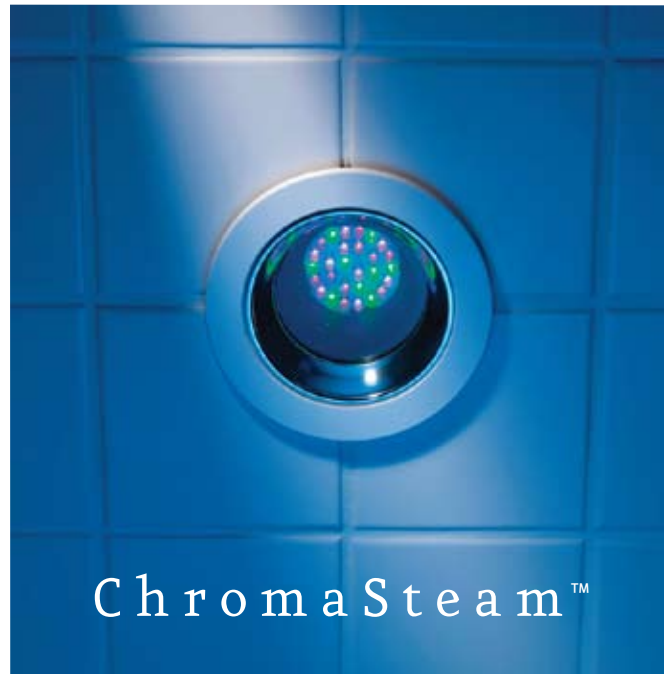

Looking for a way to unwind? Help calm agitated nerves

Healing with Color

Color and light have captured the imagination of some of the greatest thinkers in history, most notably Hippocrates, the Father of Western Medicine. Known to have incorporated Chroma and Aroma Therapy into his practice he painted treatment rooms in healing hues, used colored salves as remedies, prescribed aromatherapy baths and scented massage therapies.

Mr.Steam has revitalized the healing powers of color and light in the ChomaSteam™

ChromaSteam™

ChromaSteam is for mood lighting only and is not a substitute for general illumination.

MUSIC THERAPY®

Healing with Music

MUSIC THERAPY MAY HELP:

- MANAGE STRESS
- ALLEVIATE PAIN
- EXPRESS FEELINGS
- ENHANCE MEMORY
- IMPROVE COMMUNICATION
- PROMOTE PHYSICAL REHABILITATION

The idea of music as a healing influence which could affect health and behavior is as least as old as the writings of Plato and Aristotle.

MusicTherapy uses sound to address the physical, emotional, cognitive and social needs of individuals of all ages. Mr.Steam® creates an experience that fully engages all of the senses to improve a steambather's overall quality of life.

Music Therapy

FLUSH MOUNT SPEAKERS

- 60 watts peak power two-way speakers
 - Powder-coated grills
- Moisture resistant, matched pair
- Crystal clear full-range sound with powerful bass
- Ready for music from virtually any source

STEALTH SPEAKERS

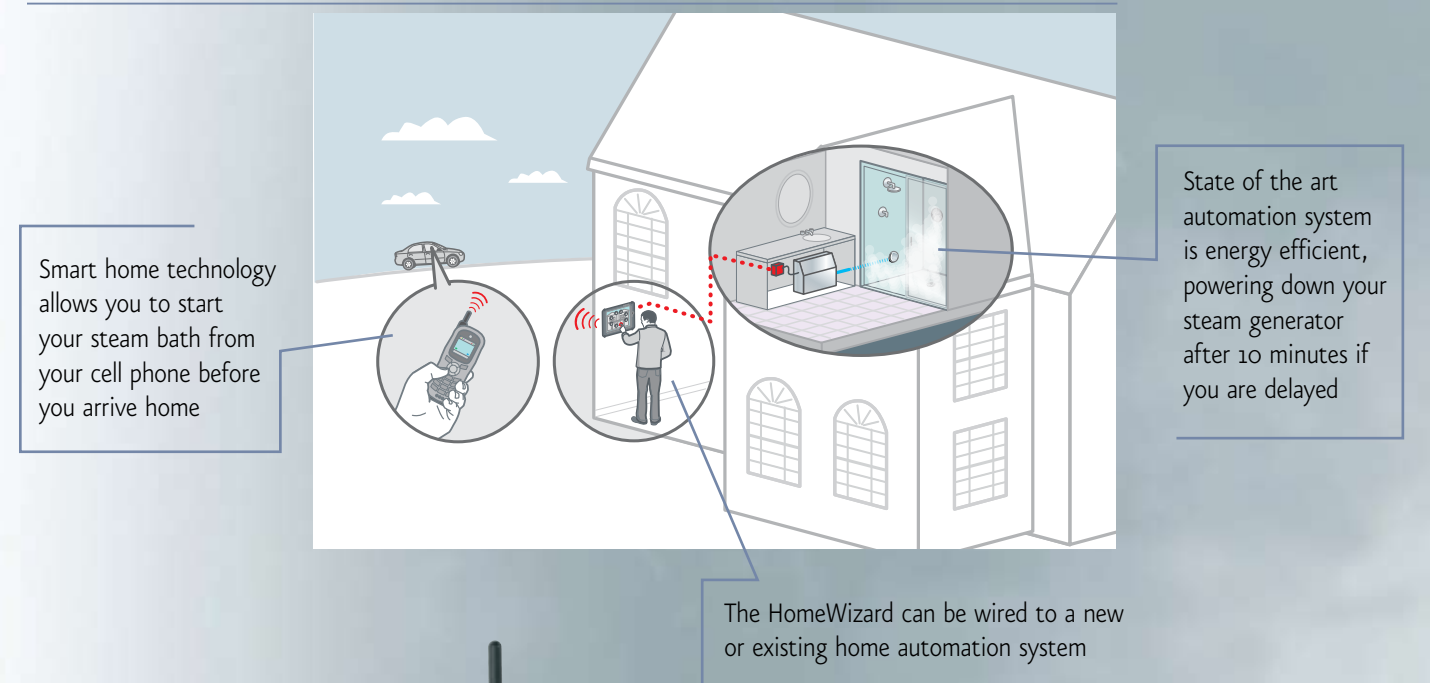

Invisible audio for an enhanced aesthetic environment. Hear and feel the crystal-clear, full-range sound fill the shower environment

Bring Smart Home Technology to your Steam Bath: Introducing HomeWizard™

The First Home Automation Steam System

Imagine arriving home after a long day to a waiting steam bath. Technical Data for Steambaths and Towel Warmers

SIZING CHART

Materials of construction and room size affect the steam generator model selection.

1	Measure length, width & height in feet of the steam enclosure:	
	Multiply the Length _____ x Width _____ x Height _____ =	ROOM VOLUME
2	Construction Material:	
	For natural stones: natural marble, stone, shale, glass block or concrete	Add 100%
	For ceramic or porcelain tile on cement board or mortar bed	Add 30%
3	Add all figures above to obtain the Total Room Volume required	TOTAL ADJUSTED ROOM VOLUME

Compare your TOTAL ADJUSTED ROOM VOLUME to the Specification Chart below and select the appropriate model.

RESIDENTIAL STEAM GENERATORS SPECIFICATION CHART

Model/Item No.	KW	Amps (for 240v/1PH)†	Total Adj Room Vol.	Wire Size‡	Water Usage gallons††	Dimensions*	Shipping Wt.(lbs)**

Top Reasons Why Mr.Steam® is the ONLY Choice:

- Experience:** Mr. Steam's parent company has over 60 years designing and manufacturing steam generating equipment for industrial applications, and each one of our steam baths is the culmination of this experience.
- Customer Service:** At Mr. Steam, we pride ourselves with providing the best customer service, with fully staffed offices on both coasts. Customer care representatives are on hand to answer any questions Monday through Friday, 8 am to 7 pm EST.
- Reliability:** All Mr. Steam products are made of serviceable industrial grade components and some systems feature state of the art self-diagnostic tools.
- Sustainability:** Mr. Steam is environmentally friendly. All home products utilize recyclable stainless steel and use water and energy efficiently.
- Quality Certified:** Every one of our products is USA and Canadian UL listed, CE and NOM certified.
- Precision Sizing:** We can provide you with the perfect fit for your steam bath using isizing from your mobile phone or online sizing so that your installation is easy and efficient.
- Towel Warmers:** Mr. Steam has designed the most efficient and innovative towel warmers that offer aromatherapy features in a wide range of sizes and finishes.
- Simple Language Warranty:** Our comprehensive warranty is written in plain English and easily available online or from a customer care representative.
- Smart Home Technology:** With Mr. Steam's innovative HomeWizard™, you can activate your steam generator remotely with your iPod®, iPad®, iPhone®, smart phone, desktop computer or home automation control pad allowing you to have a relaxing steam bath waiting when you arrive.
- Wireless Steam Genie™:** With the Steam Genie, your steambath can be activated up to 100 feet away from the generator for pre-heating the steam room.
- Multi-Purpose Platform:** Using just one innovative Mr. Steam platform, you can have a basic steam installation or a custom spa experience.
- AutoFlush, Truly Cleans the Unit:** We drain our units the same way that our parent company drains a US Navy boiler. We drain units automatically, no hand activation required. After flushing, tank stays without water until next steambath. Providing fresh water and "Clean Steam Every Time..."

Bathing Culture Around the World:

MOROCCO

the traditional moroccan hammam ritual

The Hammam, or steambath, has been in existence for thousands of years with the basic principals being used with only slight variation by cultures around the world. The Hammam boasts many therapeutic benefits and is often used today as a treatment for many medical conditions. The Hammam ritual cleanses, detoxifies, replenishes and relaxes. The steam raises the body's temperature, which may help to stimulate the immune system and enhance circulation. Much more than just a place to cleanse the skin, the Hammam, Arabic for "spreader of warmth," plays an important role as a place for social gathering and ritual cleansing.

At a spa, a traditional Hammam treatment includes a steam session followed by exfoliation and massage. Traditionally, the steam session comes first. Once you have achieved sufficient perspiration, you would proceed to a comfortably warm room where the Hamami cleanses and exfoliates your body and performs the massage. Following the treatment, you would retire to a relaxation room where, with gleaming skin and a rejuvenated metabolism, you can cool down from the treatment with a cup of tea or juice.

ROME

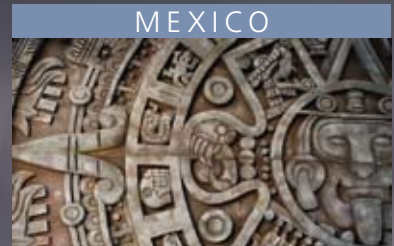

Bathing was a very important leisure activity for many Romans, as it was part of the daily regimen for men of all classes and many women. Bathing was a communal activity conducted for the most part in public facilities that in some ways resemble modern spas or health clubs.

JAPAN

Japanese bathing traditions began with communal sessions in the naturally occurring hot spring pools called Onsen. Eventually, public bathhouses were built across the country. At these unisex bathhouses, people gathered to gossip and exchange news in addition to washing. It wasn't until the 19th century that the sexes were ultimately separated.

MEXICO

The traditional Aztec sweat bath known as Temazcal was developed in Mesoamerica, a vast area that includes Mexico, Guatemala and Belize. Aztec homes usually had two separate buildings — one was the main home and the other was the steambath, a small round stone or mud structure that looked like an old fashioned beehive. To create steam, the steambather would pour water on the steamroom walls, which were heated in turn by a chimney or stove.
